

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader business all-around the globe. They are a dedicated manufacturer of spreaders for numerous different applications like for instance the swap bodies, trailers, and handling of containers.

ELME currently has more than a hundred and twenty five employees with all engineering is done in house by means of making use of all the most up-to-date FEM tools and CAD systems. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks around the globe.

The product series of ELME comprise a lot of spreaders utilized for different trailer and container handling operations. A few of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks as well as a wide array of additional parts.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they made 1150 spreaders by means of using quality parts to be able to guarantee dependability and high standards. Major features of ELME consist of design simplicity, market response and inventive modular spreader concept.
