

## Meritor Parts

Meritor Parts - Meritor is a leading global dealer that is proudly built on a one hundred year tradition of service and quality. They focus on different integrated systems, modules and components to original machine makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage within the worldwide operations. The company values all of their customers and would like to ensure their success while anticipating their various needs. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages collaboration and innovation amongst a team of knowledgeable professionals.

By just hiring future focused individuals, Meritor strongly thinks these top-caliber workers would be able to quickly get used to to changing surroundings and demonstrate the performance and commitment considered necessary to be able to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers all of their workers various possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems used for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of their global engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group that is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

They have their supplier network that is specially situated so as to support the growth of the business. Each regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
