

## Rockwell Parts

Rockwell Parts - The business of AxleTech International is a large supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for service, technology, delivery and quality. They believe in working in an environment which encourages the highest integrity with empowered collaboration, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious business and providing a safe surroundings for their staff to work in. What's more, they have applied several programs within the organization to be able to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whichever questions or comments, since they are glad to promote and share this policy with a greater knowledge of their efforts. They are very committed to preserving and improving the natural world. AxleTech has an EHS program which not just protects the natural environment but which even actively protects their employees and neighbors as well.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles used for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech particularly designs axles in order to meet certain application demands. They have more than 1000 different axle specs in their present offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The company is well known in various commercial and military applications. They offer complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that can be seen in the "ISAS" product selection.
