

Ingersoll Rand Forklift Part

Ingersoll Rand Forklift Parts - Ingersoll Rand offers products, solutions and services to be able to increase the productivity and ensure efficiency in residential, industrial and commercial environments. They pride themselves in providing products in order to improve the security, health, safety and comfort of people all around the world through their four international segments.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman manufactures food merchandising and refrigeration solutions. Trane is a trusted provider of energy efficient heating ventilation and air conditioning systems, contracting and building parts support, advanced controls and services used for both residential homes and commercial buildings.

Ingersoll Rand's Industrial Technologies division offers products and solutions which enhance their clients' operation, energy efficiency and productivity. The product range is diverse ranging from pumps and tools, material and fluid handling systems to complete compressed air systems. They have even developed Club Car, the global leader in utility and golf vehicles for businesses and people.

Brands like for example Trane and Schlage deliver residential solutions that offer comfort, safety and efficiency to home owners around North America. Their innovative products consist of mechanical and electronic locks, indoor air quality solutions, heating and air conditioning systems, remote home management, portable security systems and advanced controls.

Ingersoll Rand' Security technologies provide products that ensure productive, secure and safe environments. This division's market leading products include floor and door closers, exit devices, portable security devices, biometric and electronic access control systems, cabinet hardware, steel frames and locks and doors, locksets and decorative hardware. Recognized brand names like for example Schlage also provide personal, time and attendance scheduling systems.
